

Good News. Bad News.

Good news: you receive dozens, maybe even hundreds, of applications for each job you list.

Bad news: distractions, competing priorities, and a lack of objective data mean your screening process isn't as thorough, consistent, or fair as you'd like. Worse yet, it means you're missing out on some of the most suitable candidates.

This isn't because you don't have the skills; it's because you don't have enough time or the right tools.

That's where CLARA comes in.

What's CLARA?

CLARA is an AI-powered applicant screening & enrichment tool that delivers up to 28% additional qualified candidates—70% faster than what you're using today.
