

Screenify: AI Recruiting Assistant for your team

Hire Smarter, Faster, and More Objectively

For hiring teams who don't want to spend **95% of their time talking to unqualified candidates**, Screenify conducts in-depth 2-way AI interviews to surface the best candidates in your pipeline.

The Problem

Traditional interview tools rely on surface-level information such as past employers and resumes, missing the deeper insights that truly matter in hiring decisions—like how a candidate executes their role and develops strategies. This leads to the need for reassessing candidates, slowing the process, increasing costs, and risking poor hires.

The Solution: Screenify

Screenify is an AI-powered recruiting assistant that integrates seamlessly into your existing hiring funnel, conducting automated, **live AI interviews** to objectively assess a candidate's skills and qualifications. This eliminates manual screening, **reducing hiring time and costs by 95%**.

- ✓ **Eliminates Time-Consuming Initial Interviews** – Automate screening to focus only on top candidates.
- ✓ **Objective Candidate Scoring** – AI-driven assessments ensure fair, unbiased hiring.
- ✓ **Works with Existing Tools** – Seamlessly integrates with Google Meet, Zoom, and more.
- ✓ **Faster & Cost-Effective Hiring** – Reduce time spent on unqualified candidates, cutting hiring costs.

How It Works

1. **Plug into Your Recruiting Funnel** – No need to overhaul your process.
2. **AI Conducts Live Interviews** – Candidates engage in real-time, in-depth assessments.
3. **Get Actionable Insights** – Receive objective candidate scores to make informed hiring decisions.
